André Raineri

SUMMARY

Computer Science graduate from Universidade Presbiteriana Mackenzie with hands-on experience in IT support, hardware and software troubleshooting, and technical operations. Knowledge of Python, SQL, databases, and data analysis, with an interest in software development, technology, and continuous learning. Adaptable professional with strong problem-solving and analytical skills.

EXPERIENCE

IT Technical Support Intern 09/2025 – 01/2026
EVOLUTION CARD PERSONALIZAÇÃO EM CARTÕES DE PVC LTDA - São Paulo, SP

Performed preventive and corrective hardware maintenance and diagnosed issues with contactless smart card chips (RFID) at Evolution Card. Indexed documents in Electronic Document Management (EDM) system, installed software and assisted with troubleshooting and problem resolution. Developed problem-solving, organizational, teamwork, and user support skills through hands-on experience in IT support.

- Conducted inspections of equipment damages and ensure proper functionality.

EDUCATION

Bachelor's Degree: Computer Science, 01/2021 – 08/2026
Universidade Presbiteriana Mackenzie - São Paulo
Status - Graduated

- Bachelor's Degree in Computer Science from Universidade Presbiteriana Mackenzie, completed in August 2026. Throughout the program, I developed knowledge in software development, programming, databases, data analysis, and computer systems. I also completed academic projects involving Python, artificial intelligence, and computer vision.

HOBBIES

- Video games, technology, computer science, and exploring new technologies.

PROJETO SUPERSET

- Environment setup using Docker Compose.
  Local deployment of Apache Superset.
  SQL queries to populate charts and pivot tables.
